**PUNE CLIMATE WARRIOR**

## CONCEPTUALIZED BY

**Smt. Vandana Chavan**

Member of Parliament, Rajya Sabha  
Founder ALERT

Climate Change has become an extremely serious issue and is challenging the very existence of humankind. Heatwaves, rising temperatures, cloud bursts, floods, storms are becoming more and more frequent apart from the melting glaciers, sea-level rise, desertification, forest fires, extinction of species and new diseases all around the world.

Children are the least responsible for Climate change, yet they are the ones who will bear the greatest burden of its impacts. We are all worried about the future our children and grand-children would inherit. Understanding the seriousness of this issue, through our organization Sfurti Mahila Mandal, under its vertical- ALERT, we have been successfully conducting awareness programs on climate change since 2007 by making presentations in colleges, corporate and voluntary organizations. In 2022, we introduced an innovative climate change program for schools – known as the Pune Climate Warrior, designed to engage and inspire students to take action on climate change.

With an initial plan to reach out to only 30 schools (involving students from VI, VII, VIII Std) with various activities to create awareness on climate change- its impact, the simple science and initiatives by individuals, we were happy to receive an overwhelming response from 63 schools in Pune. Great involvement and enthusiasm followed by way of participation of schools in elocution, essay and environmental song competitions and activities like rakhi-making, best out of waste, one family-one tree, Ek kadam aage, green audit, green pledge, etc. We are happy to have reached out to more than 25,000 students. We encouraged the involvement of their families and neighbours.

Vanarai and Symbiosis Centre for Climate Change and Sustainability partnered with us in this initiative. The initiative would not have been possible without the support of a core team of experts and dedication and enthusiasm of our volunteers who worked tirelessly to make this program a grand success, happy that we have shared a program for Sangli, Nagpur and Parbhani in Maharashtra and Champaran in Bihar. I am sure this will be in line with the LIFE mission that PM Shri. Narendra Modi has recently initiated. We now look forward for the next year of the Pune Climate Warrior program.

## VISION

To create climate consciousness in the society through children and to take action towards reducing our carbon footprint.

Globally, the world community has  
committed to half the emissions by 2030 –  
That means to achieve this we have only 8  
years to go –

Each one will have to play a role –

We have no time to waste –

Do join this program to make a difference!!
